

ECO CERTIFICATE GRÜNER PUNKT

By participating in our dual system
for recycling of sales packages, the company

Karl Knauer KG
Verpackungen, Werbemittel
77781 Biberach

in 2018 contributed towards saving:

11,028 kg CO₂ equivalents

4,323 kg crude oil equivalents

31 kg phosphate equivalents

1,341 GJ primary energy

71 kg sulfur dioxide equivalents

The CO₂ saved corresponds to the amount produced if 305 passengers would take a round trip on the train from Stuttgart to Dresden (calculated through ecopassenger.org).

Recycling reduces greenhouse gases and as such is an important contribution towards climate protection. Der Grüne Punkt publishes its annual balance of environmental performance since 2001 which confirms this positive effect on the environment. The environmental performance balance is regularly reviewed by the experts from IFEU in Heidelberg.

Haucke Schlüter
Spokesman of the Board
